

The Institute

Ganga Technical Campus has been established to quench the thirst of developing excellent human resource to contribute meaningful education to our new generation youth and make them responsible citizen of the country. The rapid rate of technological advancement and the information revolution has opened the new series of challenges as well as juncture. At GTC, we aim to prepare a skilled work force to keep abreast of modernization and technological changes for being competitive in the global market in order to accelerate the process of industrialization through implementation of “Cutting edge” technology in teaching – learning process.

We strive to provide professional education in the field of Engineering-Technology, Management and computer application with an exposure of latest and advance techniques providing them platform at GTC for Project Exhibition, industrial visits exposure to meet tremendous performance of our country. We have carved out a distinct pigeonhole for education hub in Delhi/NCR with 4 colleges and 9 international schools covering all streams. Ganga Technical Campus is the latest in series of educational institutions run by the society Pawan Ganga Educational Society and it is not merely an addition of a feather in a cap of Ganga Group of Institutions but also a result of our more than 20 years of experience with a sheer hard work and invincible growth of the group.

About The Society

Pawan Ganga Educational Society (PGES)

4/12 East Punjabi Bagh

New Delhi

Pawan Ganga Educational Society (Registered Under Societies Registration act, 1860) is in the field of Education since the last decades and running many schools and colleges in Haryana, Delhi and Punjab. Society is promoted by well known educationists, proficient philanthropists and industrialists with the vision to grow skills and creativity in students. The members of the society are well qualified and experienced and are serving the community since a decade. The Hon'ble Chairman of the society Dr. Sushil Kumar Gupta is a great philanthropist who has devoted his life for the upliftment of all the sections of society. He has established a series of education. The Society has achieved an astound success and a name of repute in the field of education in a very short span of time. The institutes running under Ganga Group of Institutions are :

- **Ganga Technical Campus, Bahadurgarh**
- **Ganga International School, Kablana, Jhajjar**
- **Ganga International School, Hirankudna, New Delhi**
- **Ganga International School, Sawda, New Delhi**
- **Ganga Institution of Tech. and Mgt., Kablana, Jhajjar**
- **Ganga Institute of Education, Kablana, Jhajjar**
- **Ganga International School, Khanori Mandi, Patiala (Pb)**
- **Ganga International School, Rohini, New Delhi**
- **Sun Shine Sr. Sec. School, Bhuna, Fatehabad (Haryana)**
- **Govind Ram Gurukul Sr. Sec. School, Old Subzi Mandi, New Delhi**

From the CHAIRMAN'S Desk

Dr. Sushil Gupta

It is a matter of great pride to know that Ganga Technical Campus is launching its first placement brochure. I heartily congratulate the Director and Placement team of the Institute who has taken this initiative to launch this brochure.

GTC in its earlier days has marked its presence in the field of not only quality education but also extracurricular activities and also building its name in the terms of better placement. Because of the efforts made by the team members of GTC in the recent year, Ganga Technical Campus has been awarded with the "Young Achiever Award" by the Career Guru for the best placement in the region.

Individuals, who wants to be a good engineer and wants to play a big role in the world of tomorrow need to acquire a different set of knowledge, attitude and skills.

The unique mission of the Institute is to nurture and train these young buds with the latest skills and knowledge required in the industrial setup. It is a pleasure to learn that with every passing semester GTC is improving in term of results and placements.

I am proud to say that once our students step in, they step out with the self-confidence and knowledge to face all endeavors with complete practical knowledge.

On behalf of GTC I welcome you to become our partners in sharing our dream, vision and our journey!

From a sweltering day, to the darkest night,
we continue making headway with all our might
With our never ending ecstasy to transcend,
With our never ending fervour to triumph !

From the DIRECTOR'S Desk

Prof. (Dr.) Rakesh Rajpal

Beginnings are always difficult and so a good beginning is very important. It is a fact that when we start any task in a good manner, it reaches its heights successfully and same with us. But a lot more is yet to be done for us as sky is the limit for GTCians.

In an era of globalization, innovation is the key to success and it compels us to keep hardworking to compete the standard norms of an international education system. Since the dawn of the 21st Century, the education scenario is going through a change and our youth must be prepared accordingly, so that they can achieve their goals.

The objective of imparting professional education is to give one an understanding of individuals, particularly as to the manner in which they grow and develop physically, mentally, emotionally and socially as everyone has a unique personality.

With an aim to remain quality conscious, we provide students not only technical and corporate training, but also to make them self-confident and even better human beings with the best leadership qualities.

Dear students, you should concentrate on skill education only because when you will be skilled, multiple opportunities will wait for you and automatically packages will be higher.

At GTC, we promise an atmosphere for all the students to achieve the skills which empower them to command, respect and recognition in industry and society at large.

Pre-Placement Training Activity

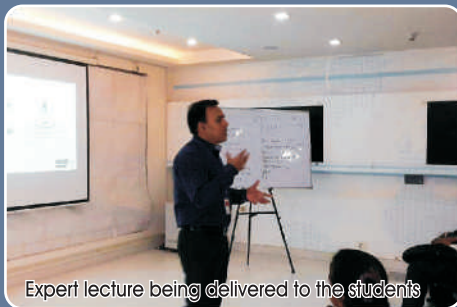

Pre-placement training activity is one of the most important key factors to increase the percentage placement of the students. It enhances the theoretical and practical knowledge of the students and helps them to be prepared for the campus placement.

Training on Technical Skill Development:

Training on technical skills has been provided to the students very frequently and on regular basis to impart better knowledge to them. Advance technologies have been introduced to the students in the form of workshops to increase their awareness towards the recent developments in the field of technologies. Some courses like AutoCAD, Staad Pro, 3D Modeling, Solid works, Pro-E, PLC, SCADA, C, C++ , PHP, Android Applications, JAVA, Web Designing, Cloud computing, and CCNS have been included in the curriculum of the students to make them ready for the Industry.

Training on Soft Skills and Mock Interviews Sessions :

Soft skills include everything right from communication to the presentation to performance of the students. Students have been taught to improve their body languages, their personality, dressing sense, about making their resume, SWOT analysis, preparing them for interviews by doing mock drills and much more about etiquette.

Expert lecture being delivered to the students

EXPERT LECTURES

In order to offer our students latest insights into the emerging technologies and advancements, various faculties of Ganga Technical Campus arrange for renowned experts to come and visit the university to deliver expert talks to our students. These expert talks help our students gain strong foothold in their respective discipline and help them stand out among the rest.

ASSESSMENT TEST

The new concept that have been involved by the team of placement cell of our institute is assessment of students by online adaptive test. For which the institute has tied up with Aspiring Mind – A Multinational Forum, who perform 3 hours online test of our graduates and diploma level students. This test provides us the proper assessment report of individual student and suggests us for the needful training that has been required for each student.

Ganga Technical Campus has given an opportunity to explore the real technical world through seminars, conferences, guest lectures and industrial visits. It has been a great experience being a part of such institution which not only provided us with quality education but also had helped us to groom our personality. I am proud to be a member of GTC family.

I can speak with complete confidence that Ganga Technical Campus, Soldha has enriched me by imparting quality education. The institute has helped me understand, explore and realise my true potential and the Industrial exposure has given a new horizon to my understanding of technical field. The competent faculty, placement cell and the top management have given individual attention to all the students. I am very proud to be a part of GTC, Soldha.

Ganga Technical Campus, Soldha helped me to excel in academics as well as gain pragmatic experience through the live project of IIT Bombay. GTC is the best thing that could happen to me; it helped me to understand the industrial expectations.

Ganga Technical Campus has proved to be a landmark in my career as my expectations have been fulfilled. The warm and loving environment here, makes me feel comfortable as it is my second home. The dedicated faculty has made me more confident and enriched in my academic arena. The corporate exposure given here has made me realize my career goals and I am geared for my future challenges and opportunities.

Immense Opinions what Students Speaks about GTC

GTC is a great institute for those who are serious & passionate about learning. Cultural and Technical Events will help you to learn about managing & executing from concept to delivery and teach you the importance of teamwork.

Courses at GTC are at par with industry standards. They train you in all departments used for handling latest challenges in the industries. I joined GTC after completing my school. With the guidance of my faculty I applied for training of solid works. This was the beginning of my career in the design industry. I also worked on a number of renowned brands.

My days, at GTC, can be described as 'every penny well spent'. I joined GTC because I knew they promise quality & delivered on it. GTC was a fun experience. We had access to latest software & high-end infrastructure. The best part was the support that I received from the instructors, not just during the course but even after the course was over.

Joining GTC was a life changing decision for me. GTC launched me into this wonderful career that I cherish everyday. The training, I received, was the perfect balance between aesthetics & Technical knowledge.

No doubt, training at GTC set the foundation for a successful technical career. Studying, at GTC, was a great experience, the teachers and the whole team of GTC are very helpful and supportive.
